

Participant-Directed Services and Supports Brokering Information Session Hosted by The Arc Lancaster Lebanon, Lititz PA

Presenter: Pamela Zotynia, Supports Broker & Supports Brokerage Outreach Coordinator, Values Into Action

Participant-Directed Services, also called "Self-Directed Services," are a way for a waiver participant to have more control over who provides services and how services are provided.

- ✓ Do you want more control over your services?
- ✓ Do you need help understanding the regulations and rules that govern services?
- ✓ Are you directing your own services but need more support with managing your paid staff?
- ✓ Are you interested in finding more creative ways to arrange your paid and unpaid supports?

If you answered "yes" to any of these questions, this session is for you!
